The Honorable Jocelyn G. Boyd
Chief Clerk / Administrator
Public Service Commission of South Carolina
101 Executive Center Drive, Suite 100
Columbia, South Carolina 29210

RE: Duke Energy Carolinas, LLC – Docket No. 2013-298-E
Residential Multi-Family Energy Efficiency Program

Dear Ms. Boyd:

Duke Energy Carolinas, LLC (the “Company”) requests approval of a proposed modification to the Residential Multi-Family Energy Efficiency Program (the “Program”) from the Public Service Commission of South Carolina (the “Commission”). The Commission originally approved the Program in Docket No. 2013-298-E, Order No. 2013-889 issued December 20, 2013.

The Program provides for the direct installation of energy efficiency (“EE”) measures in multi-family complexes at no cost to property managers or residents. Currently, the Program is available only to individually metered apartments in buildings containing a minimum of four (4) units. The Company is proposing to expand the Program’s availability to all individually-metered apartments by removing the restriction on the minimum number of dwellings per building.

This proposed modification will permit more customers to participate in the Program and will not materially impact the Program’s cost-effectiveness. For this reason, the Company respectfully seeks to amend its tariff for the Program; the proposed revised tariff is attached hereto. Please feel free to contact me should you have any questions or concerns.

Kind regards,

Sam Wellborn
